

Dear UCSB Graduate Student:

This message contains important information about the on-line housing application process for all current UCSB single graduate students who are interested in living in San Clemente Villages. **Priority will be given to current residents wishing to return, though we anticipate being able to offer spaces to all continuing graduate students that apply.**

The on-line housing application process for currently registered UCSB single students will take place from 8:00 A.M., Monday, February 1 through Monday, February 15 at 12:00 Midnight, Pacific Standard Time. The application will be available on the Housing & Residential Services website at <http://www.housing.ucsb.edu>. You must have an active U-Mail account to participate in the housing application process. If you do not have an active U-Mail account, you can activate it now at <http://www.umail.ucsb.edu>.

If you are applying with roommates/apartment-mates, it is imperative that you discuss your housing choices ahead of time and if possible, get together to complete your individual on-line applications. Each applicant will need to have the perm number for each requested roommate/apartment-mate.

The monthly rent for these units include water, trash, gas, electricity, wireless internet, cable television and parking. For more information about San Clemente, please visit the website at <http://www.housing.ucsb.edu/hchoices/grad-descriptions.htm>.
